

Reciprocal Borrowing Program

DuPage Library System's (DLS) Reciprocal Borrowing Program (RBP) allows you to use your library card to check out materials at any DLS public library. If you're traveling through Illinois, your card will also be honored at most public libraries statewide. Check with the library that issued your card to find out which public libraries participate.

You may borrow whatever the library you're visiting is willing to lend, subject to that library's rules.

To make sure you're credited for returning borrowed materials, it's best to return them to the library from which you borrowed them. However, you also may return them to the library that issued your card.

On the Road?

Your library card is welcome at most public libraries throughout Illinois!

Interlibrary Loan

DuPage Library System's (DLS) Interlibrary Loan Service (ILL) allows you to use your library card at your home library to obtain materials that your library doesn't own.

To access this service, visit your home public library to request materials. Service fees may apply.

Library staff will use ILL when it is appropriate. If it is appropriate, a library staff member will contact another library to arrange to obtain the material. The material will be delivered to the library via statewide van delivery, mail, fax (if possible), or other means. Once the item arrives at the home library, it is made ready for the individual to check out and then the individual is notified that the requested item is available. A specific due date is given when the material is checked out so that the item can be returned to the material's home library in a timely manner. Renewals may be allowed, but must be done through the individual's home library.

For more information about this and the other services available to you at your library, contact the home library listed on your library card.
